Originally posted by :same problem Man uninstall the game. Online multiplayer will be inaccessible" I have taken a screenshot - Please tell me how to fix that problem because I want to play again. I tried to contact Rocstar support,steam support but nobody answers me : Same problem here, haven't found any fix yet. Download it again and install it. It is going to take you a few hours but I don't know about any better solution to this problem. Online mulitplayer will be inaccesible. I try to play multiplayer but I get this alert saying unable to connect to matchmaking services. Originally posted by :same problem Man uninstall the game. Some geospatial data on this website is provided by. On one computer I can play as much mp as I want, on another I can't. Download it again and install it. Originally posted by :Same problem, no idea how to fix it never been able to play mp Well month ago I could play mpl but now I can't and unfortunately I'm not the only one so there must be somebody who knows how to fix that problem. I hadn't played max payne 3 multyplayer for a month a month ago everything was perfect i had no any issues but today when I clicked on multyplayer something went wrong. It is going to take you a few hours but I don't know about any better solution to this problem. Some geospatial data on this website is provided by. Then the problem will be gone. Used to play Mulitplayer back when it was released, now all I get is "unable to connect to matchmaking services. Matchmakjng geospatial data on this website is provided by.
